

Procedures for Submission of SBs: A Review of Suitability

Presented by:
Albert Altarejos MAGALANG
Co-Chair, DNA Forum

Stakeholder Consultation Workshop on Standardized Baseline under the CDM
4-5 September 2011, Kathmandu, Nepal

Role of DNAs

- ✧ the active participation of central government bodies (e.g. DNAs) could provide an effective coordination mechanism among project participants and could improve reporting on country emissions
- ✧ approval procedure by DNAs is needed for PSBs submitted by DOEs

The Need for an Expert Group

- ✧ To undertake necessary revisions or amendments of existing guidelines to broaden SB applicability
- ✧ To assess the PSB and review draft recommendations on PSB by the Secretariat
- ✧ To calculate SBs for specific sectors or countries

Barriers for DNAs' Active Role in SBs

- ❧ Technical guidance and financial support related to gathering and accessing accurate and updated data
- ❧ Procedures on how the DNAs can propose SBs

Thank You
