

CDM-PA1066-RULE01

Ruling note

Rationale for the rejection of PRC-1066-001

Version 01.0

United Nations
Framework Convention on
Climate Change

1. Rationale for the rejection of the request for post-registration changes

1. The CDM-Executive Board decided to reject the proposed request for post-registration changes for project activity 1066 on 29 October 2013, in accordance with the *Clean development mechanism project cycle procedure* (CDM-EB65-A32-PROC, version 05.0), paragraph 154 (the procedures).
 - (a) The biomass combusted was not measured using weight or volume meters as per ACM0006 version 04 (page 49).
 - (b) The PP/DOE did not submit an energy balance, considering the stocks of biomass at the beginning and end of verification period as per ACM0006 version 4 (page 48)
 - (c) The PP/DOE did not clarify that there is no bagasse sold out of the project facility. This was found to be not in line with the paragraph 266 of VVS, version 4.0.
