Re.: Request for Support for Issuance of CERs for the CDM Project Activity 1123 Ciudad Juarez Gas to Energy Project

Dear Mr. Rangel Legarreta,

On behalf of the Chair of the CDM Executive Board (the Board), I would like to thank you for your letter of 10 December 2013 requesting support for issuance of CERs for the CDM project activity "1123 Ciudad Juarez Gas to Energy Project". Your letter has been made available to the Board.

As your request for issuance has been put under review, the timeline for consideration by the Board as described in chapter 8.2.3 of the Project Cycle Procedure (PCP) version 5.0 applies. Therefore any decision would only be finalized either (i) 20 days after the date when the availability of both the secretariat and the Registration and Issuance Team (RIT Team) assessment report was communicated to the Board as per paragraph 221 of the PCP or (ii) after a future Board meeting as per paragraph 223 and 224 of the PCP.

An exemption from the aforementioned timeline would represent a deviation from current rules and procedures. Your request would therefore require a decision by the Board at its next meeting which is scheduled in February 2014. I therefore regret to inform you that no course of action was possible to achieve an issuance before 31 December 2013.

Please nevertheless note the secretariat is working to ensure a short timeline which would allow consideration by the Board at its next meeting.

Yours sincerely,

Andrew Howard

Secretary to the CDM Executive Board
