Re.: Request for report on hydroelectric dam emissions cited in EB-15.

Dear Mr. Philip Fearnside,

On behalf of the Chair of the CDM Executive Board (the Board), I would like to thank you for your letter of 23 January 2014 requesting the document cited in the CDM Meth Panel Nineteenth meeting report, Annex 10. Your letter has been made available to the Board.

Unfortunately, I am not able to meet your request as the report cited in the 19th Meth Panel meeting report was not fully approved and only some elements of it were used. Furthermore, the report does not necessarily represent the Panel or the Board's views on the subject.

Alternatively, if the authors of the report were not bound by any confidentiality agreement or copyrights when the report was produced, you may wish to contact directly:

Yours sincerely,

Rajesh Sethi
