Re.: Project 9713: Santa Rita Hydroelectric Plant. Request for registration should be rejected.

Dear Mr. Tot,

On behalf of the Chair of the CDM Executive Board (the Board), I would like to thank you for your letter of 26 May 2014, requesting the review of project activity 9713: "Santa Rita Hydroelectric Plant".

I would like to inform you that your letter was considered by the Board at its seventy-ninth meeting and the Board has agreed to register the project activity "Santa Rita Hydroelectric Plant" (9713), submitted by the Designated Operational Entity (DOE) "Colombian Institute for Technical Standards and Certification" (ICONTEC) as per paragraph 34 of the report.

I would like to mention that the Board has registered the aforementioned project as, after careful assessment, it was considered to be in compliance with the applicable CDM requirements, including the local stakeholder consultation process. Further, the designated national authority of Guatemala issued the required letter of approval, and also assured the Board, in the course of the review of the project, that the local consultation process was followed.

Yours sincerely,

Rajesh Sethi
Secretary to the CDM Executive Board
