We would like to thank the CDM EB for providing a simplified procedure in case the project proponent wants to change the DOE during the Validation activity as per paragraph 23<sub>quarter</sub> of the revised CDM Project Cycle Procedure version 08.

Similarly we would request the CDM EB to provide procedures for CDM Verification projects for the below cases;

1. MR has been uploaded and the PP now wants to change the DOE keeping the monitoring period constant, however the DOE is unwilling to withdraw. Thus the PP is not able to proceed further and is helpless.
2. MR has been uploaded and PP now wants to change the Monitoring period and the DOE thus would like to withdraw the MR.

Reasons for such procedure: Due to low CER prices PP awaits a formal agreement with buyer and depending on the probability of reaching an agreement; CDM verification is carried out. Thus in many cases the PP needs to withdraw the MR as they are not able to reach a agreement with buyer, in such cases issues with DOE leads to projects being stuck.

Request to EB: We hope the CDM EB would consider our request and allow for Withdrawing the MR from the website by sending an email from the Project proponent as similar case is allowed for CDM validation activities.

*Please provide any specific suggestions or further information which would address the issue raised in the previous section, including the exact reference source and version (if applicable).*

Request to EB: We hope the CDM EB would consider our request and allow for Withdrawing the MR from the website by sending an email from the Project proponent as similar case is allowed for CDM validation activities.

*If necessary, list attached files containing relevant information (if any)*
