**Re.: Request for revision to guidelines for post-registration design changes for a SSC PoA**

Dear Mr. Silon,

On behalf of the Chair of the CDM Executive Board, I would like to thank you for your letter of 23 January 2015 regarding amendment of the rules on post-registration changes so that a revised version of a small-scale methodology may be applied to a PoA even if there is no new technology or measure added to the PoA.

I would like to inform you that the CDM Executive Board (the Board), at its eighty-third meeting, considered your request as mentioned in paragraph 64 of the meeting report<sup>1</sup>.

The Board agreed to consider such requests on a case by case basis and may consider revising the rules in question in the future. Accordingly, you may wish to proceed with your request to upgrade a small scale PoA to the latest version of a methodology through a post-registration change request in accordance with the “CDM project cycle procedure”.

I hope that this response has addressed your questions.

Yours sincerely,

Rajesh Sethi  
Secretary to the CDM Executive Board
