

## Draft standardized baseline (DSB) development plan form (Version 01.0)

### INFORMATION TO BE COMPLETED BY THE SECRETARIAT

<b>Date (DD/MM/YYYY) and number of the Board meeting that decided the development:</b>	EB 81 (24 - 28 November 2014)
<b>Title of the draft standardized baseline:</b>	Standardized Baseline - woody biomass consumption for cookstoves in Burundi
<b>Name(s) of the Party or Parties to which the draft standardized baseline applies:</b>	Burundi
<b>Elements to be standardized by the draft standardized baseline:</b> <i>(Select one or more than one element(s) to be standardized)</i>	<input type="checkbox"/> Additionality demonstration <input type="checkbox"/> Baseline identification <input checked="" type="checkbox"/> Baseline emission/ removal estimation <input type="checkbox"/> Land eligibility demonstration
<b>Proposed approach for the development of the draft standardized baseline:</b>	
<input type="checkbox"/> The "Guidelines for the establishment of sector specific standardized baselines" <input checked="" type="checkbox"/> A methodological approach contained in an approved baseline and monitoring methodology (Please specify below the exact reference (number, title and version) of the approved methodology (AMS-I.E Switch from non-renewable biomass for thermal applications by the user – ver.5.0; AMS-II.G Energy efficiency measures in thermal applications for non-renewable biomass – ver. 6.0) <input type="checkbox"/> A methodological approach contained in an approved methodological tool (Please specify below the exact reference (title and version) of the approved tool _____) <input type="checkbox"/> The "Guideline: Establishment of standardized baselines for afforestation and reforestation project activities under the CDM"	
<b>Proposed data source, applicability and impacts of the draft standardized baseline:</b>	
<p><i>Data and source</i></p> <p>1. Data and information on woody biomass consumption of households or institutional cookstoves from National statistics, studies and reports, Reports and Sampling surveys used in registered CDM projects and PoA documentation such as "Promotion of the use of hybrid solar cookers" and other credible sources such as reports and publications of UN agencies such as UNEP, FAO, UNDP.</p> <p><i>Impacts of the standardized baseline</i></p> <p>The standardized baseline, if approved, will facilitate development and validation of CDM projects for clean cookstoves in Burundi. This will stimulate the development of improved cookstoves project activities by eliminating the need for individual efforts to determine woody biomass consumption by project activities/PoAs and will enhance the mitigation outcomes.</p>	

Any other issues to be stated, if necessary:		
Schedule of key activities		
<i>(List below all key activities to develop the draft standardized baseline with the expected timeline. These could include use of external expertise, completion of the 1st draft of DSB, consideration by two selected members of Panel/ WG and/or Panel/ WG, and consideration by the Board. Add rows if necessary)</i>		
Phase	Activity	Timeline (DD/MM/YYYY)
Initiation phase	Agreement form finalized	04/10/2014
	Identification of data sources and data availability by researching national statistics, studies from public services, national reports and surveys, UN reports, literature sources used in registered project activities and PoAs.	30/10/2014
	Data gathering and compilation of the identified data sources by the secretariat including assessment of data quality in collaboration with the DNA	15/11/2014
	Processing of data including receiving the complete data from data providers for development of standardised baseline. (This work and deadline depends upon the ease with data is available). Optimistic deadline is mentioned. All other subsequent deadlines ahead depend primarily on this phase.	30/11/2014
Drafting and consideration phase		
Development of the standardized baseline and consideration of proposed standardized baseline Gilberto, Daniel	Formal quality assessment by the secretariat.	15/12/2014
	Preparation of draft recommendation (and reformat if applicable) and taking inputs of two SSC WG members	15/01/2015
	Updating the draft based on inputs/feedback of the SSC WG members	27/01/2015
	SSC WG discussions and recommendation (depending on members recommendations)	In Q1 2015 (dates for SSC WG not decided yet)
	Agreement of the DNA on the finalized draft PSB	Depends upon the outcome of SSC WG in Q1 2015.
Approval phase	Approval of SB 28 days from sending the recommendation to the Board members if no objections are received.	In Q1 2015
	Consideration of SB in subsequent EB meeting in 2015, if at least one EB member objects.	In Q1 2015
