

Proposed standardized baseline initial assessment form (Version 02.0)

INFORMATION TO BE COMPLETED BY THE SECRETARIAT							
Title of proposed standardized baseline:	Grid emission factor for Sudan						
Date (DD/MM/YYYY) when the initial assessment is completed:	06/08/2015						
Notes for completing below:							
Please assess the completeness of the submitted proposed standardized baseline according to the "Procedure: Development, revision and clarification and update of standardized baseline" (CDM-EB63-A28- PROC).							
If all the assessment of the criteria from No.1 to No. 3 is "Yes" while all the assessment of the criteria No.4 and No. 5 is "Yes" or "Not applicable", the submission is evaluated as "complete" . Otherwise, the submission is evaluated as "incomplete" .							
Criteria	Assessment	Note					
1. The CDM-PSB-FORM has been duly completed.	⊠ Yes □ No	The CDM-PSB-FORM was completed and signed. Enclosed documents (in particular, the "Grid emission factor Sudan – Report on the determination of the standardized Baseline") properly complement the CDM- PSB-FORM.					
 The proposed standardized baseline is derived from one of the following approaches: (a) The "Guidelines for the establishment of sector specific standardized baselines"; (b) A methodological approach contained in an approved baseline and monitoring methodology; (c) A methodological approach contained in an approved tool; or (d) The "Guideline: Establishment of standardized baselines for afforestation and reforestation project activities under the CDM". 	⊠ Yes □ No	The proposed standardized baseline was developed using a methodological approach for baseline emission factor calculation as contained in "Tool to calculate the emission factor for an electricity system" ver.4.0.0.					
 The DNA submitted all the information required for consideration of the proposed standardized baseline (e.g. studies referred to in the proposed updated standardized baseline documents). 	Yes	All the relevant documents are submitted, which includes several confidential letters/reports and publicly available reports/data as well as full dataset and key supporting documentation					

CDM-PSBA-FORM

	(a)	It documents how the proposed standardized baseline is derived, including documentation of all underlying data, data sources, assumptions, calculation steps and outcomes.	Yes No	The "Grid emission factor Sudan – Report on the determination of the standardized Baseline" duly elaborates how the standardized baseline was derived.
	(b)	It explains how the proposed standardized baseline will be used with the relevant approved methodology(ies) or an approved tool.	Yes No	The submission uses the approach provided under "Tool to calculate the emission factor for an electricity system" ver.4.0.0.
	(c)	The validity of the proposed standardized baseline is specified in accordance with applicable requirements.	Yes No	This standardized baseline is valid for three years from the date of its adoption by the CDM Executive Board.
4.	sul the to an da wit	the case that an assessment report was bmitted: the assessment report presents how e data was collected, processed and compiled establish the proposed standardized baseline d includes a positive opinion on whether the ta was collected and processed in accordance th relevant procedures or guidelines adopted by e Board.	Yes No Not applicable	Since this is the second submission from Sudan, which is a country that has less than 10 registered CDM projects as of 31 December 2010, an assessment report can be omitted by the DNA. In this case the assessment report will be prepared by secretariat.
5.	de of su	here the proposed standardized baseline is veloped for a group of Parties, approval letters all the DNAs (excluding the letter of the DNA bmitting this proposed standardized baseline) ve been submitted.	Yes No Not applicable	The proposed standardized baseline is developed for a single country.
