Ministry of Environment  
and Natural Resources  
Protection of Georgia

# OUTLET

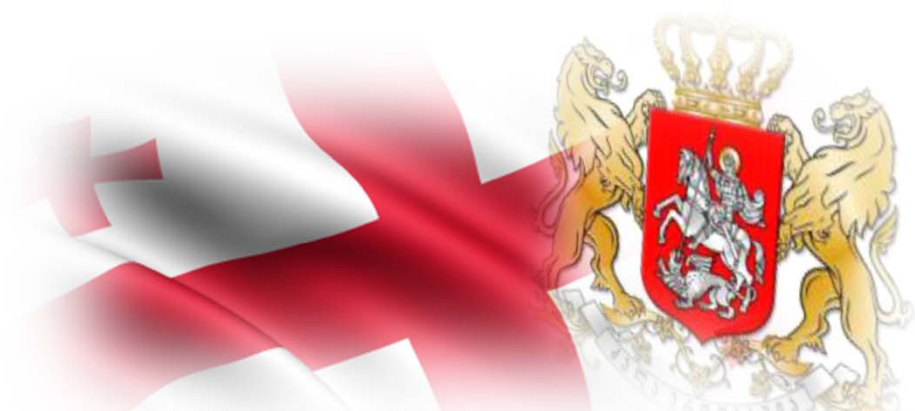

---

- Intended Nationally Determined Contribution of Georgia;
- Emissions' Trend for Georgia;
- Institutional Arrangement;
- Sector Coverage;
- Conclusions

# INDC of GEORGIA

---

*“Economic growth will be accompanied by increase in GHG emissions (if no efforts are made to reduce GHG emissions associated). Therefore, it is important to undertake efforts to substantially limit this increase by boosting investments in low carbon technologies throughout the country.”*

**GEORGIA'S INTENDED NATIONALLY DETERMINED CONTRIBUTION SUBMISSION TO THE UNFCCC**

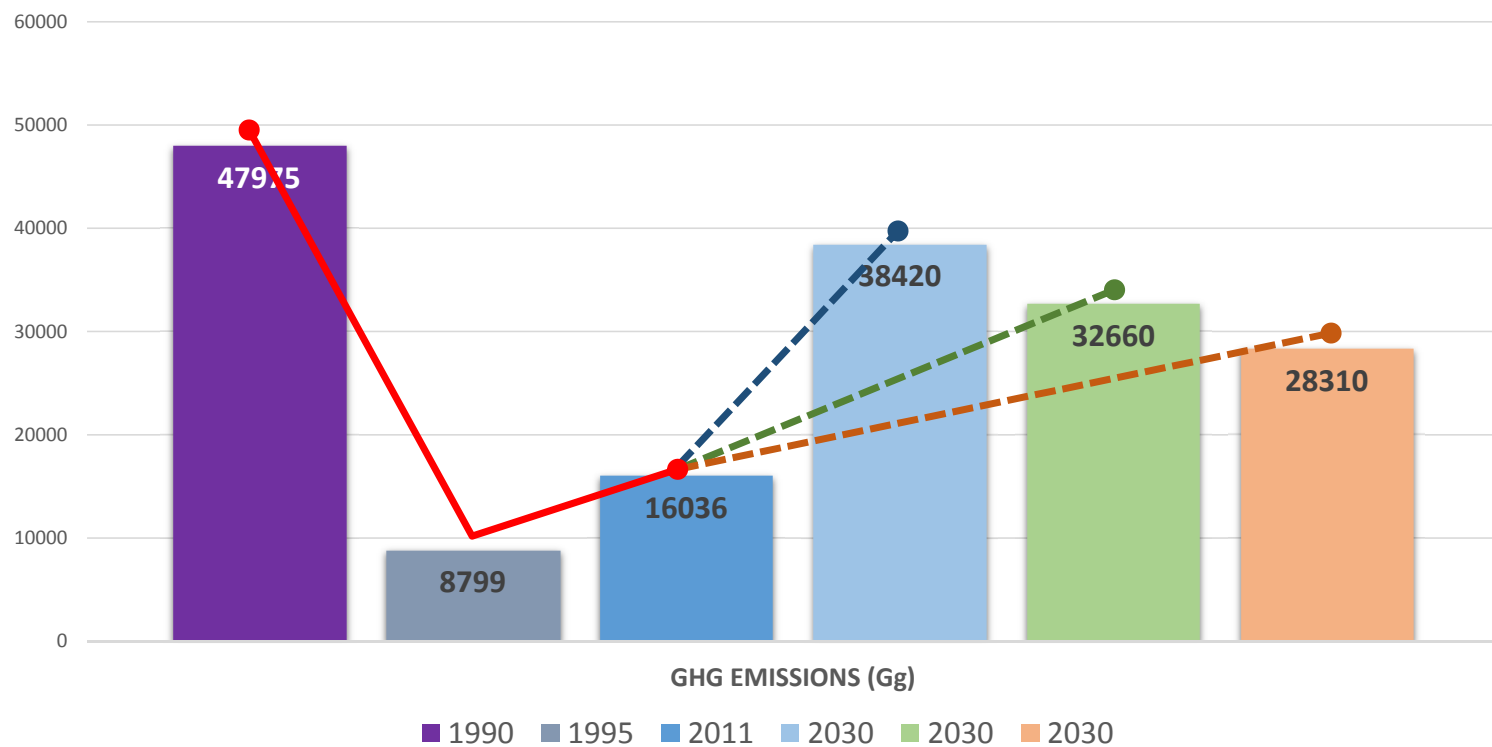

**giz** Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

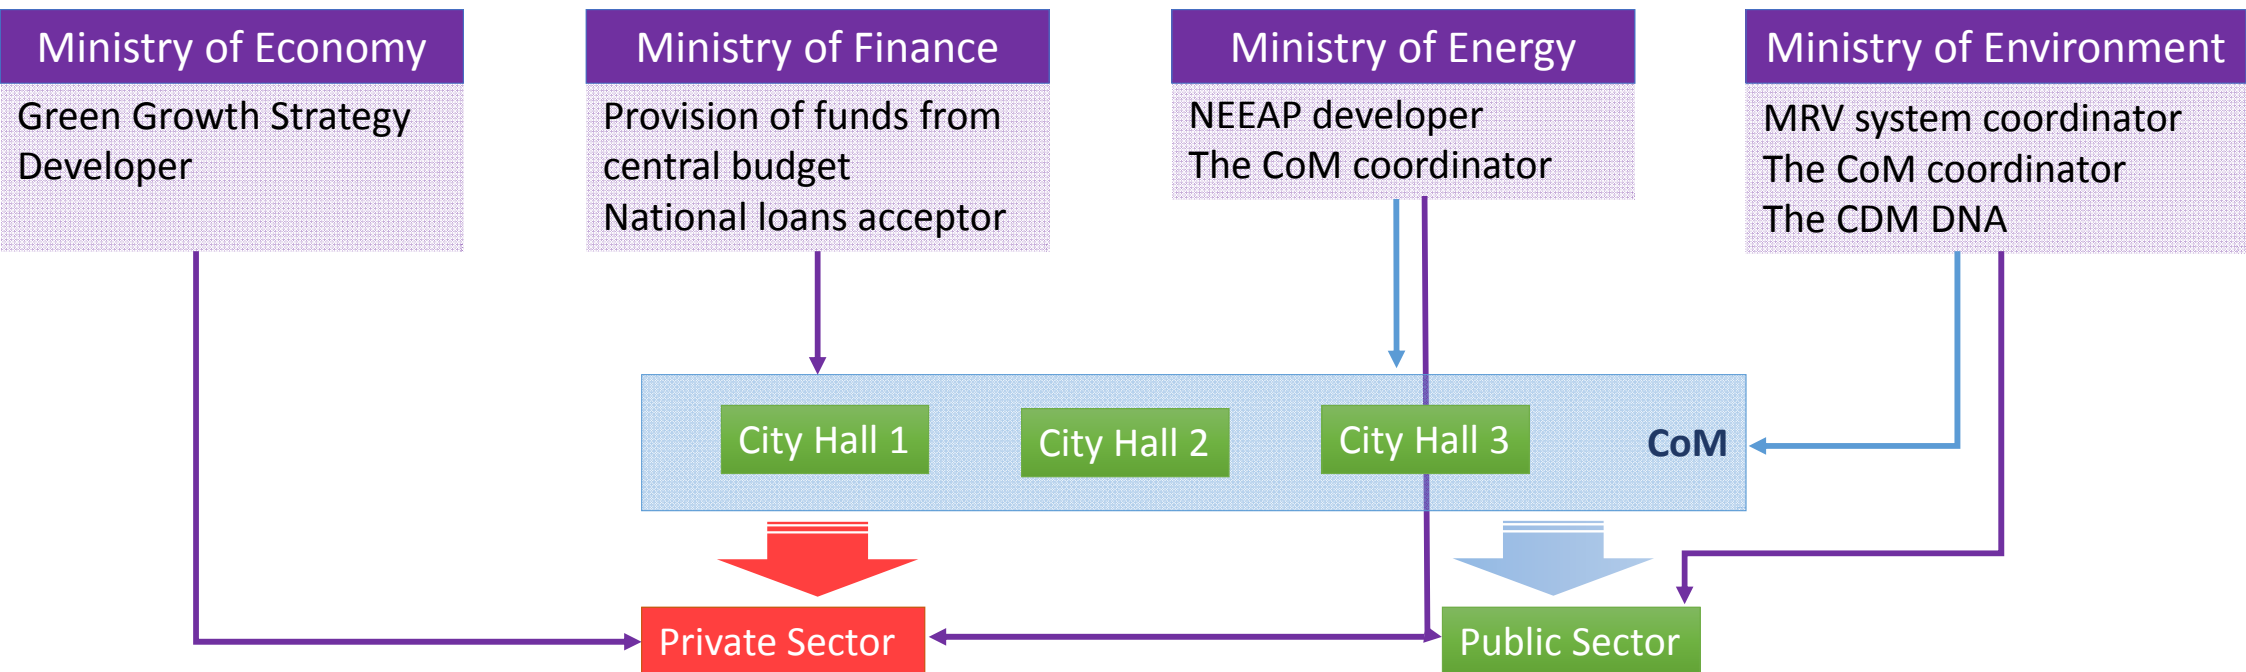

Support to Climate Change Mitigation and Adaptation  
in the Eastern Neighbourhood countries and Russia

# EMISSIONS *from* GEORGIA

---

# INSTITUTIONAL ARRANGEMENT

# SECTOR COVERAGE

---

ENERGY

INDUSTRIAL PROCESSES

AGRICULTURE

WASTE

*Fugitive Emissions*

*Transport Emissions*

*Emissions from Cement Production*

*Etc.*

# CONCLUSIONS

---

**CDM is something already used only financial mechanism in Georgia;**

**CDM methodology synergy with other mitigation tools;**

**CDM mostly needs to be simplified and updated;**

**CDM's ability to allow countries to increase their level of private sector engagement;**

**Countries with an emission reduction obligation under the Protocol can use the mechanism for fulfilling the mitigation goals;**

**CDM should take into consideration the INDC targets as well.**

# POST-2020 AMBITION: INDC VS MARKETS

Thank you!
