**Communication Text**  
*Include background, details, and conclusion (unlimited length)*                      The current CDM regulations allow for two exclusive options with regard to crediting period; either a max. term of 10 years(fixed) or a max. of 7 years at most two times(a total of 21 years). Yeong Yang 61.5MW Wind Farm Project was registered with 10 years(fixed) crediting period(20 Feb 2009~19 Feb 2019), but this option can't be renewed after the valid crediting period. Since CER market has been significantly depressed due to reduction of CER prices upto 90%, Yeong Yang project with 10 years fixed crediting period would have a revision the crediting period to 7 x 3(21 years) renewable. Yeong Yang would like to know the feasibility of revision crediting period from 10 years(fixed) to 7 x 3(21 years) at this stage.
