SECTION 3: YOUR COMMUNICATION				
Title/Subject Maximum 250 characters	Allow to pay fees of partial CERs as per PP choice and trade it			
Communication Text Include background, details, and conclusion (unlimited length)	1. This is with reference to project activity having CER issuance for monitoring period which includes both CP1 period and CP2 period. As you know CERs for CP1 are not tradable and only CP2 CERs are tradable. Thus it is not affordable or economical feasible to PP to pay CER issuance fees for CERs of complete monitoring period (including both CP1 and CP2 period) and trade CERs for CP2 only. There are many projects which have similar issue of not economically viable. Thus we request EB to allow such projects/PPs to pay the CER issuance fees in parts so that PP may decide which vintage credits fees to be paid (allow to decide to pay fees of partial CERs) and trade them in the market.			

¹ In accordance with the "*Procedure: Direct communication with stakeholders"* (*version 02.0*), stakeholders may address communications either (a) to the secretariat, in order to seek a fast-track technical or operational explanation regarding the implementation of existing CDM rules, or (b) to the CDM Executive Board, in order to communicate to the Board their views on CDM rules and their implementation, or to seek official clarifications of CDM rules.

Version 01.0 Page 1 of 2

	Also it may happen that there are large number of CP2 issued credits, however PP do not find buyers for whole credit. Is such case, PP can pay fees of partial CERs of specific vintage and trade them. Thus EB is requested to allow to pay fees of partial CERs and can trade them in the market. 2. Also we require clarification if project activity got issuance and registry fees is not paid, then is it allow to withdraw and apply to other GHG program to get issuance and trade them in the market.
Supplemental Documents If applicable, list the title(s) of any attached file(s) or link(s)	
This communication may be made public	Yes
