

**Proposed standardized baseline recommendation form
(Version 02.0)**

**INFORMATION TO BE COMPLETED BY THE TWO SELECTED MEMBERS OF THE PANEL/ WORKING GROUP
OR THE PANEL/WORKING GROUP**

Title of the proposed standardized baseline:	Standardized baseline for efficient charcoal production in Côte d'Ivoire
Reference number of the proposed standardized baseline:	PSB0035
Name(s) of the Party or Parties to which the proposed standardized baseline applies:	Côte d'Ivoire
DNA submitting the proposed standardized baseline:	Ministère de l'Environnement et du Développement Durable, Agence Nationale de l'Environnement (ANDE), Côte d'Ivoire
Name(s) of the proponent(s) of the proposed standardized baseline: <i>(Parties, project participants, international industry organizations or admitted observer organizations)</i>	Ministère de l'Environnement et du Développement Durable, Agence Nationale de l'Environnement (ANDE), Côte d'Ivoire
History of the submission:	1 st submission on 02/02/2016 2 nd submission on 30/08/2016
Date (DD/MM/YYYY) when the recommendation is completed:	22/09/2016

Approach for the development of the proposed standardized baseline:

- The "Guidelines for the establishment of sector specific standardized baselines"
- A methodological approach contained in an approved baseline and monitoring methodology (AMS-III.BG.: Emission reduction through sustainable charcoal production and consumption. Version 3.0)
- A methodological approach contained in an approved methodological tool (Please specify below the exact reference (title and version) of the approved tool _____)
- The "Guideline: Establishment of standardized baselines for afforestation and reforestation project activities under the CDM"

Important conditions under which the proposed standardized baseline is applicable:

The standardized baseline can only be used in conjunction with the latest approved version of the small-scale methodology AMS-III.BG "Emission reduction through sustainable charcoal production and consumption".

All the applicability conditions of the small-scale methodology AMS-III.BG shall apply.

The produced charcoal is supplied to identified consumers for thermal applications included in the project boundary.

Summary description of the proposed standardized baseline:

This standardized baseline provides:

- a) Default values for baseline emissions parameters based on the approved small scale methodology AMS-III.BG "Emission reduction through sustainable charcoal production and consumption", including the value for the parameter f_{NRB} .
- b) A positive list of measures and technologies that are deemed as automatically additional.

Recommendation to the Board:
<input checked="" type="checkbox"/> To approve the draft standardized baseline <input type="checkbox"/> Not to approve the draft standardized baseline
Reasons for not approving the proposed standardized baseline:
Any other issues arising from the review of the proposed standardized baseline:
<p>The DNA of Côte d'Ivoire has confirmed their intention to apply the value of 93% for parameter fraction of non-renewable biomass (f_{NRB}), which has been calculated by the Small-Scale Working Group (Annex 14 to the report of the 37th meeting of the SSC WG), and approved at the 68th meeting of the Board.</p>
