Re: Inquiry about possibility of CDM project

Dear Sir or Madam,

I would like to thank you for your communication of 11 October 2016, regarding the inquiry about possibility of CDM project. Your communication has been made available to the CDM Executive Board (the Board) in accordance with the relevant provision of the procedure for direct communication with stakeholders.¹

There is a range of approved biomass methodologies, suitable for both small and large scale CDM project activities. You are invited to visit the section of our website dedicated to CDM methodologies.² When you land on our methodologies page, please search for the keyword 'biomass' in the title. In addition to that, you may want to download a complementary CDM methodology booklet which is also available on the same section of our website.³ For examples of CDM project activities applying these methodologies, please visit our Project Search page on the UNFCCC CDM website.⁴

Thank you for contacting the Board with your request.

Yours sincerely,

Rajesh Sethi
Secretary to the CDM Executive Board
