

CDM-PA1254-RULE01

Ruling note

Rationale for the rejection of PRC-1254-003

Version 01.0

United Nations
Framework Convention on
Climate Change

1. The CDM-Executive Board decided to reject the proposed request for post-registration changes for CDM project activity 1254 on 27 July 2017, in accordance with *the Clean development mechanism project cycle procedure for project activities* (CDM-EB93-A06-PROC, version 01.0), paragraphs 149 and 150 (the procedures).
 - a) The request for post-registration changes “PRC-1254-003: The TIMARPUR-OKHLA Waste Management Company Pvt Ltd's (TOWMCL) intergrated waste to energy project in Delhi”, proposed to exclude the waste types inert waste, rubber, leather and plastics from the parameter “amount of waste type i fed into the RDF combustor (A_i)”. The DOE (Earthood) has failed to demonstrate compliance with the requirements of the VVS and the applied methodology as mentioned in paragraph (b) below.
 - b) The relevant requirement(s) are as follows:
 - i. CDM Validation and Verification Standard for project activities ver. 01, paragraph 248 (a) states that “the project participants shall under the prior-approval track, request any DOE to assess whether the post-registration changes comply with the relevant requirements”,
 - ii. The applied methodology (AM0025 ver. 06, para 23) requires monitoring of the amount of waste type “i” fed into the RDF (i.e. all waste types fed into the RDF).
 - c) The reason and rationale for the final decision is:
 - i. with the proposed change, parameter “A_i” now contains only organic waste types whereas the applied methodology (AM0025 ver. 06 page 23) requires monitoring of all types of waste fed into the RDF (i.e. the amount of waste type “i” fed into the RDF); and
 - ii. the submitted report on the physical characterization of waste indicates that the wastes delivered to the project site also contain waste types, such as inert waste, rubber, leather and plastics among others.

Document information

Version	Date	Description
01.0	31 July 2017	Initial publication. Related to CDM project cycle procedure for project activities, version 01.0 (CDM-EB93-A06-PROC) (Paragraphs 149 & 150).
