Environment, Nature Conservation,
Building and Nuclear Safety
of the Federal Republic of Germany

Cooperation with partner institutions for Enhanced Climate Action GIZ/RCC Experience

RCC Kampala Regional Context – Supported Countries

- Angola
- Botswana
- Djibouti
- Egypt
- Eritrea
- Ethiopia
- Kenya
- Lesotho
- Libya
- Malawi
- Mauritius
- Mozambique

- Namibia
- Rwanda
- Seychelles
- Somalia
- South Africa
- South Sudan
- Sudan
- Swaziland
- Tanzania
- Uganda
- Zambia
- Zimbabwe

UNFCCC RCC

- **Mission: to catalyze climate action on the ground**
 - **Broad scope of support**
 - ✓ **Technical support**
 - ✓ **Capacity building**
 - ✓ **Partnerships**
- **Working with a broad range of stakeholders**

Joint Collaboration framework

- Memorandum of Understanding between GIZ and UNFCCC at global level on cooperation on climate and energy programmes
- Secondment of GIZ staff to RCC to support work on SB development and the Carbon pricing initiative.
- Joint support to partner states on capacity building efforts on carbon market instruments for government institutions and non state actors

About GIZ Carbon Markets Programme

Objective:

To strengthen East Africa's governments and the private sector in using carbon market instruments and developing these further

Commissioned by:	<ul style="list-style-type: none">• German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB)
Project Region:	<ul style="list-style-type: none">• Member states of the East African Community (EAC) + Ethiopia
Running time:	<ul style="list-style-type: none">• July 2015 – June 2018 (three years)

Collaborating partners for regional climate actions

United Nations
Climate Change Secretariat

DNAs

**+ Public Sector of other
East African countries**

Private Sector Institutions

DNA needs and priorities in the region

- Enhanced knowledge about CDM procedures and Climate finance
- Leverage existing CDM pipeline of projects eligible for Climate Finance
- Use of CDM methodologies and Standardised baselines to support the monitoring , reporting and verification (MRV) of emission reductions e.g. in the case of NAMAs, NDCs
- Private sector engagement to support implementation of mitigation actions e.g. using experience from CDM for project implementation

Partner support in the East African region

- Development of standardized baselines (Uganda, Rwanda, Ethiopia)
 - Uganda; Update of SB on sustainable charcoal production, SB on improved institutional cook stoves
 - Rwanda- Sustainable charcoal production
 - Ethiopia-improved institutional cookstoves
- Technical advise on the use of these SBs for MRV of NAMAs in the region e.g. Uganda NAMA on Integrated Sustainable Energy Solutions for Schools (Green Schools NAMA)

Partner support in East African region

Private sector engagement in CDM activities and contribution to wider mitigation actions such as NAMAs, NDCs

- Support project inclusion of project activities to existing PoAs – 10 CPAs supported under ICSEA PoA
- Regional training workshop on private sector engagement in mitigation actions on NDC and NAMA
- Capacity development for private sector stakeholders and government institutions in Ethiopia on management of CDM activities and climate finance (in collaboration with GIZ EnDev ETH)

Partner support in the East African region

Capacity development on market instruments under the PA

- Preparatory trainings for COP negotiations i.e. PreCOP21, PreCOP22, PreCOP23 on Article 6. these are aimed to;
 - Discuss recent developments on carbon markets e.g. aviation sector and new opportunities under carbon pricing
 - Create understanding on market based approaches including SDM and linkages with NDC implementation and climate finance
 - Allow negotiators to discuss the needs and priorities of East African countries on market and non market based approaches and their role in the PA6
- RCC Kampala in collaboration with the World Bank and GIZ will be organizing the Carbon Pricing Dialogue that is scheduled to be held in Nairobi on 5-6 October 2017. The event will bring together stakeholders from both the public and private sector to discuss the potential of carbon pricing in Africa.

Innovative climate financing for CDM projects; examples from the region

- RCC has worked with various funding agencies to identify potential CDM projects for financing based on selected criteria. These include;
 - Norwegian Government (for CER purchase),
 - Crowd funding platforms under TRINE and Bettervest for funding renewable energy and energy efficiency projects
- GIZ support through development of an ignition fund to support CPA inclusion for vulnerable projects
- Models for linking CDM methodologies to MRV of NAMAs- technical support provided to the Ministry of Energy in Uganda on utilising CDM methodologies for MRV of Green Schools NAMA

Future outlook of activities

- Capacity development for DNAs on Article 6 mechanisms
- Technical support on opportunities for climate finance and development of carbon pricing instruments to trigger investment
- Capacity development on carbon pricing mechanisms to trigger investment in mitigation actions
- Support implementation of mitigation activities under NAMAs and NDCs
- Create linkages between CDM and new market mechanisms under Article 6 of the PA
- Capacity development on issues related to MRV and transparency among East African countries

Asante Sana
