Re.: New project activity in the same physical or geographical location at which a project activity whose crediting period has expired existed

Dear Mr. Esparta,

On behalf of the Chair of the CDM Executive Board, I would like to thank you for your communication of 10 May 2018 to the CDM Executive Board (the Board), regarding a proposed new project activity in the adjacent area at which a project activity whose crediting period has not expired exists. Your communication has been made available to the Board in accordance with the relevant provision of the procedure for direct communication with stakeholders.¹

I would like to inform that the document CDM-EB93-A04-STAN, Standard: CDM project standard for project activities,² supersedes and replaces the “Clarification: New project activity in the same physical or geographical location at which a project activity whose crediting period has expired existed” (CDM-EB83-A01-CLAR)³ (version 02.0). Therefore, requirements in CDM-EB93-A04-STAN needs to be considered for your case.

Due to limited information available to make a determination, you are requested to submit, via email to cdm-info@unfccc.int, the following information:

- (i) Geo coordinates and site diagram showing both the existing and the new projects;
- (ii) If new environmental licence is required for the new project, information related to the new licence that will need to be issued;
- (iii) Power generation capacity (in MW) of the new project activity;
- (iv) Project design diagram for the new project, including information on measures envisaged for separation of landfill cells for the two projects and any connectivity of piping system between the two projects;
- (v) Safeguard measures undertaken, if any, for prevention of leakage between cells of adjacent landfills;
- (vi) Information on resource type and resource quantity for the existing registered CDM project activity (PA 10261) and the proposed new project activity;
- (vii) Reason for stating that the new proposed project activity will not decrease the expected emission reductions or removals of the existing project activity, including explanation of non-diversion of municipal solid waste from PA 10261.

Thank you for contacting the Board with your request.

Yours sincerely,

Rajesh Sethi
Secretary to the CDM Executive Board
