

**Proposed standardized baseline initial assessment form  
(Version 03.0)**

**INFORMATION TO BE COMPLETED BY THE SECRETARIAT**

<b>Title of proposed standardized baseline:</b>	Standardized Baseline for Improved Institutional Cookstoves in Ethiopia
<b>Date (DD/MM/YYYY) when the initial assessment is completed:</b>	10/07/2018

**Notes for completing below:**

*Please assess the completeness of the submitted proposed standardized baseline according to the "Procedure: Development, revision and clarification and update of standardized baseline" (CDM-EB63-A28-PROC).*

*If all the criteria under numbers 1 to 3 are assessed as "Yes" while all the criteria under numbers 4 and 5 are assessed as "Yes" and/or "Not applicable", the submission is evaluated as "**complete**". Otherwise, the submission is evaluated as "**incomplete**".*

Criteria	Assessment	Note
1. The CDM-PSB-FORM has been duly completed.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
2. The proposed standardized baseline is derived from one or a combination of the following approaches with or without deviation: <ul style="list-style-type: none"> <li>(a) The approach contained in the "Guidelines for the establishment of sector specific standardized baselines";</li> <li>(b) A methodological approach contained in an approved, proposed new or revised baseline and monitoring methodology;</li> <li>(c) A methodological approach contained in an approved, proposed new or revised tool; or</li> <li>(d) The approach contained in the "Guideline: Establishment of standardized baselines for afforestation and reforestation project activities under the CDM".</li> </ul>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	The proposed standardized baselines are developed using an approach in the following approved small-scale methodologies and tools. <ul style="list-style-type: none"> <li>- AMS-II.G: Energy efficiency measures in thermal applications of non-renewable biomass, Version 09.0</li> <li>- AMS-I.E: Switch from non-renewable biomass for thermal applications by the user, Version 08.0</li> <li>- Methodological tool: Demonstration of additionality of small-scale project activities, Version 11.0</li> <li>- Methodological tool: Calculation of the fraction of non-renewable biomass, Version 01.0</li> </ul>

<p>3. The DNA submitted all the information required for consideration of the proposed standardized baseline (e.g. studies referred to in the proposed updated standardized baseline documents).</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<p>(a) It documents how the proposed standardized baseline is derived, including documentation of all underlying data, data sources, assumptions, calculation steps and outcomes.</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<p>(b) It provides data by using either a sector-specific data template published by the secretariat or prepared in accordance with the relevant methodology or methodological tool.</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<p>(c) It explains how the proposed standardized baseline will be used with the relevant methodology(ies).</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<p>This proposed standardized baseline will be used in conjunction with the applicable valid version of the small-scale methodologies AMS-I.E. or AMS-II.G. Furthermore, use of the fNRB value shall be possible independently.</p>
<p>(d) The validity of the proposed standardized baseline is specified in accordance with applicable requirements.</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<p>The proposed standardised baseline shall be valid for a period of 3 years from the date of approval by the CDM EB.</p> <p>The fNRB value however shall be valid for a period of 5 years from the date of approval by the CDM EB.</p>
<p>(e) It provides a justification for the necessity and the appropriateness of a combination of the approaches or deviation from the selected approach(es).</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not applicable	<p>Project activities under CDM small-scale methodologies AMS-I.E. and AMS-II.G. are related to a switch from non-renewable biomass to renewable biomass or a reduction of the consumption of non-renewable biomass due to increased efficiency in applications. As such, the determination of the fraction of non-renewable biomass (fNRB) is an integral requirement under these methodologies.</p>
<p>(f) Reference is made to the approved or proposed new or revised methodology to be used together with proposed standardized baseline for the calculation of emission reductions.</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	

<p>4. In the event that an assessment report was submitted by the DNA, the assessment report includes:</p> <p>(a) Details on the assessment process and assessment findings;</p> <p>(b) A positive assessment opinion on the compliance of: (i) the quality assurance and quality control system with the provisions and data quality objectives of the “Guidelines for quality assurance and quality control of data in the establishment of standardized baselines”; and (ii) the proposed standardized baseline with one or a combination of the approaches with or without deviation.</p>	<p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> Not applicable</p>	<p>An assessment report was omitted by the DNA.</p>
<p>5. Where the proposed standardized baseline is developed for a group of Parties, letters of approval of all the DNAs (excluding the letter of the DNA submitting the proposed standardized baseline) have been submitted.</p>	<p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> Not applicable</p>	<p>The proposed standardized baseline was submitted by a single Party.</p>
