

**CDM-POA5067-RULE01**

## Ruling note

---

# Rationale for rejection of PRC-5067-002

Version 01.0

**United Nations**  
Framework Convention on  
Climate Change

1. The CDM-Executive Board decided to reject the proposed request for post-registration changes for CDM programme of activities 5067 on 14 June 2019, during its one hundred and third meeting, in accordance with the clean development mechanism project cycle procedure for programme of activities (CDM-EB93-A09-PROC, version 02.0), paragraphs 160, 162 and 163 (the procedures):
  - (a) The DOE (Shenzhen CTI International Certification Co., Ltd (CTI)) failed to substantiate the change of the start of the crediting period of CPA 5067-0005 in accordance with CDM project standard for programme of activities (PS-PoA), version 02.0, paragraphs 255 and 279.
  - (b) The relevant requirements are:
    - (i) The PS-PoA paragraph 255 states that “The coordinating/managing entity shall prepare, for each monitoring period, either a single monitoring report or multiple separate monitoring reports in the following manner: (a) In the case of a single monitoring report, the report shall contain all monitoring results of all CPAs included in the registered CDM PoA; ...”;
    - (ii) The PS-PoA, paragraph 279, states that “” The coordinating/managing entity shall, through a DOE, request the issuance of CERs, tCERs or ICERs as follows: (a) In a single request, if only one monitoring report has been published covering all CPAs in the PoA; or ...”.
  - (c) The reasons and rationale for the final decisions are:
    - (i) The CPA 5067-0005 was included in the monitoring report and request for issuance number 5067-MP2-IRP1 (1 July 2012 – 30 June 2013) which has been verified and certified by a DOE earlier.
