SECTION 3: YOUR COMMUNICATION

Title/Subject
Maximum 250 characters Time extension request for the renewal process of CDM project ref no. 3193

Communication Text
Include background, details, and conclusion (unlimited length)

CDM project title Wayang Windu Phase 2 Geothermal Power Project, Ref No. 3193 was registered on 2 December 2010 and the crediting period ended on 1 December 2017. We had gone through a renewal crediting period process but was rejected on 22 July 2019. The reason for rejection was that the DOE failed to validate the calculation of parameter EF grid, OM in line with the "Tool to calculate the emission factor for an electricity system" (version 06.0) as the parameter is calculated based on 3-year simple average instead of 3-year generation-weighted average. We are in the process of rectifying the problem and will be submitting application for a re-validation. However, the 31 December 2019 is very tight for the work required. We would therefore like to request for the crediting period renewal deadline extension to 30 June 2020.
