# Topics

- **Annexes 10 (performance monitoring) and 11 (accreditation procedure) of AA**
- **Relaxing of mandatory site visits by DOEs**

# Comments to AA

## Annex 10 (performance monitoring)

- Thanks to secretariat for providing comprehensively responses to the feedback given by DOEs
- No further comment received → support approval

## Annex 11 (accreditation procedure)

- Changes as proposed are also supported by the DOE Forum

## Relaxing of mandatory site visits by DOEs

- Fast process was really appreciated (and necessary)
- Exceptional period (23 March to 23 June 2020) almost half done → further extension to be considered now
- Recommendation to compile experiences and lessons learnt as main topic of 2020's DOE calibration workshop (by web-conference?) and to utilize them in future revisions of standards and procedures

**Thank you for your attention!**
