Project/PoA Ref. Number	NA <small>5-digit# format 01234</small>	If applicable, CPA Ref. Number: NA <small>8-digit# format 0123-4567</small>
--------------------------------	--	--

Project Cycle Stage	Issuance	If other: NA
----------------------------	----------	--------------

If there is no specific CDM Reference Number, please answer the remaining questions in this section (otherwise proceed to Section 3).

Host Country(ies)	NA
--------------------------	----

Project/PoA Title	NA
--------------------------	----

Technology Type	[Choose an item]	If other: NA
------------------------	------------------	--------------

SECTION 3: YOUR COMMUNICATION

Title/Subject <small>Maximum 250 characters</small>	Public availability of credit reconciliation project history, Ease of MOC update and non issuance of HCA from Other Parties Involved
---	--

Communication Text <small>Include background, details, and conclusion (unlimited length)</small>	1. Public Availability of credits reconciliation: Issues/Observations : It is not possible to view publically history of project activity credits for information like how much credits fees paid, how much credits fees is not yet paid, how many credits cancelled and how many are available for forwarding purpose. It is difficult to get credit concilation of project activity from PP due to non availability of focal point of contact and difficulty to revise MoC if they have left organization.
--	---

¹ In accordance with the "Procedure: Direct communication with stakeholders" (version 02.0), stakeholders may address communications either (a) to the secretariat, in order to seek a fast-track technical or operational explanation regarding the implementation of existing CDM rules, or (b) to the CDM Executive Board, in order to communicate to the Board their views on CDM rules and their implementation, or to seek official clarifications of CDM rules.

	<p>Proposed request: We are of opinion that UNFCCC credit history can be viewed similar to VERRA/ GS registry so that anyone can view the projects complete credit history. This will help to support PPs for CER transaction at the faster level.</p> <p>2. Security code and passwords for CER Transactions:</p> <p>Issues/Observations :We understand thato there are separate security code/password for each monitoirng period, thus for multiple MPs, transaction process is not easy being multiple MPs</p> <p>Proposed Request: We proposed to have user name and password for each project actiivty so that complete project page can open and it is possible to view all MPs details and their credit history, This will ease of transaction process and support PP for CER transactions.</p> <p>3. MoC update Issues:</p> <p>Issues/Observations: It is essential that current focal point of contact shall be active/available with PP so that CER transaction can be done. There are many such projects where MOC update is must and we face diffcuilties to revise MOCs in below aspects</p> <ul style="list-style-type: none"> a) There is change in company name b) There is change in ownership (asset transfer to new company) c) The old company/ previous company letter head is not available for Authorization letter/Board resolution as per UN requirement to authorize new person for focal point of contact. d) Project activity does not involve Other party other than Host Country Party, thus transaction of CERs will not be possible unless PP from other Party is not involved and the HCA issuance is on hold by other Parties due to which other Party PP addition is not possible till next CMP meeting. e) As per current guideline, Each PP (Host Party PP and Other Party PPs) confirmation is required while MOC revision which is complex/diffcuilt as many other Party PPs are not active or other Party focal point contact is not available. Most of time, the other Party PPs /focal point of contact is not reachable <p>Proposed request: We proposed to provide solution for above issues so that MOC revision will be easy and CERs transaction can be possible</p> <ul style="list-style-type: none"> a) We proposed to accept certificate for change in company name, Notarized authorization/Board resolution on new company letter head b) We proposed to accept evidence of change of ownership and Notarized suthorization/Board resolution on new company letter head c)We proposed to accept new company letterhead for authorization letter for change in focal point contact person d) Please guide how to complete CER transaction if project activity does not involve other party in absence of HCA from other party. e) Please guide if it is possible to have only Host Country PP authorization or only main focal point of contact person authorization. <p>There are many such projects where above issues are found and we are unable to proceed the CER transactions. We request UNFCCC guidance how we can process CER transactions with ease of operations due to uncertainty in market because of postpone of CMP meeting.</p>
<p>Supplemental Documents <i>If applicable, list the title(s) of any attached file(s) or link(s)</i></p>	<p>NA</p>
<p>This communication may be made public</p>	<p>Yes</p>
