

Approved standardized baseline update recommendation form

(Version 01.0)

INFORMATION TO BE COMPLETED BY THE TWO SELECTED MEMBERS OF THE PANEL/WORKING GROUP OR THE PANEL/WORKING GROUP

Title/Subject:	Request for update of ASB0011-2018, version 01.0
Reference (number, title and version) of the approved standardized baseline to which the request for update is made:	ASB0011-2018: "Landfill gas capture and flaring in the Dominican Republic (version 01.0)"
Reference number of the request for update:	ASU_005
DNA submitting the request for update:	The Dominican Republic National Council for Climate Change and CDM
Name(s) of the proponent of the proposed updated standardized baseline: <i>(Parties, project participants, international industry organizations or admitted observer organizations)</i>	Mr. Max Puig Vicepresidente Ejecutivo del Consejo Nacional para el Cambio Climático y el Mecanismo de Desarrollo Limpio (CNCCMDL)
History of the submission:	11 Nov 2020 - Initial submission received 18 Dec 2020- Initial assessment successfully concluded
Date (DD/MM/YYYY) when the recommendation is completed:	25 January 2021
Summary of the request for update:	
<p>This standardized baseline applies to CDM project activities capturing and flaring land fill gas (LFG) in the Dominican Republic.</p> <p>This standardized baseline establishes that:</p> <p>(a) All CDM project activities capturing and flaring LFG in the Dominican Republic are additional;</p> <p>(b) The baseline scenario for the LFG is assumed to be the atmospheric release of the LFG;</p> <p>(c) The amount of methane (tCH₄/year) in the LFG that would be captured and flared in the baseline in the project year "y" as per the enforced regulations and/or contractual arrangements applicable to existing and new landfills is standardized to be equal to zero (0).</p>	
Recommendation to the Board:	
<input checked="" type="checkbox"/> To approve the proposed updated standardized baseline <input type="checkbox"/> Not to approve the proposed updated standardized baseline	
Reasons for not approving the proposed updated standardized baseline:	

Any other issues arising from the assessment of the proposed updated standardized baseline:

According to the Procedure: Development, revision, clarification and update of standardized baselines, v04.1 (footnote 4), where no data collection/processing is required to establish the proposed standardized baseline, the assessment report is not required to contain the positive assessment opinion on the compliance of quality assurance and quality control system.

Considering that the SB involves no data processing and that the DNA has provided its certification letter confirming that the host party does not have landfill gas management regulations in place, the assessment report is deemed not necessary.
