

Monitoring report form for CDM project activity
(Version 08.0)

Complete this form in accordance with the instructions attached at the end of this form.

MONITORING REPORT

Title of the project activity			
UNFCCC reference number of the project activity			
Version number of the PDD applicable to this monitoring report			
Version number of this monitoring report			
Completion date of this monitoring report			
Monitoring period number			
Duration of this monitoring period			
Monitoring report number for this monitoring period			
Project participants			
Host Party			
Applied methodologies and standardized baselines			
Sectoral scopes			
Amount of GHG emission reductions or net anthropogenic GHG removals achieved by the project activity in this monitoring period	Amount achieved before 1 January 2013	Amount achieved from 1 January 2013 until 31 December 2020	Amount achieved from 1 January 2021
Amount of GHG emission reductions or net anthropogenic GHG removals estimated ex ante for this monitoring period in the PDD			

SECTION A. Description of project activity**A.1. General description of project activity**

>>

A.2. Location of project activity

>>

A.3. Parties and project participants

Parties involved	Project participants	Indicate if the Party involved wishes to be considered as project participant (Yes/No)
Party A (host Party)	Private entity A Public entity A ...	
Party B	Private entity B Public entity B ...	
...	...	

A.4. References to applied methodologies and standardized baselines

>>

A.5. Crediting period type and duration

>>

SECTION B. Implementation of project activity**B.1. Description of implemented project activity**

>>

B.2. Post-registration changes**B.2.1. Temporary deviations from the registered monitoring plan, applied methodologies, standardized baselines or other methodological regulatory documents**

>>

B.2.2. Corrections

>>

B.2.3. Changes to the start date of the crediting period

>>

B.2.4. Inclusion of monitoring plan

>>

B.2.5. Permanent changes to the registered monitoring plan, or permanent deviation of monitoring from the applied methodologies, standardized baselines, or other methodological regulatory documents

>>

B.2.6. Changes to project design

>>

B.2.7. Changes specific to afforestation or reforestation project activity

>>

SECTION C. Description of monitoring system

>>

SECTION D. Data and parameters

D.1. Data and parameters fixed ex ante

(Copy this table for each data or parameter.)

Data/Parameter	
Unit	
Description	
Source of data	
Value(s) applied	
Choice of data or measurement methods and procedures	
Purpose of data/parameter	
Additional comments	

D.2. Data and parameters monitored

(Copy this table for each data or parameter.)

Data/Parameter	
Unit	
Description	
Measured/calculated/default	
Source of data	
Value(s) of monitored parameter	
Monitoring equipment	
Measuring/reading/recording frequency	
Calculation method (if applicable)	
QA/QC procedures	
Purpose of data/parameter	
Additional comments	

D.3. Implementation of sampling plan

>>

SECTION E. Calculation of emission reductions or net anthropogenic removals**E.1. Calculation of baseline emissions or baseline net removals**

>>

E.2. Calculation of project emissions or actual net removals

>>

E.3. Calculation of leakage emissions

>>

E.4. Calculation of emission reductions or net anthropogenic removals

	Baseline GHG emissions or baseline net GHG removals (t CO ₂ e)	Project GHG emissions or actual net GHG removals (t CO ₂ e)	Leakage GHG emissions (t CO ₂ e)	GHG emission reductions or net anthropogenic GHG removals (t CO ₂ e)			
				Before 01/01/2013	From 01/01/2013 until 31/12/2020	From 01/01/2021	Total amount
Total							

E.5. Comparison of emission reductions or net anthropogenic removals achieved with estimates in the registered PDD

Amount achieved during this monitoring period (t CO ₂ e)	Amount estimated ex ante for this monitoring period in the PDD (t CO ₂ e)

E.5.1. Explanation of calculation of “amount estimated ex ante for this monitoring period in the PDD”

>>

E.6. Remarks on increase in achieved emission reductions

>>

E.7. Remarks on scale of small-scale project activity

>>

Attachment. Instructions for completing this form

1. General instructions

1. When reporting on monitoring results and completing this form, comply with the “CDM project standard for project activities” (hereinafter referred to as the project standard), the selected methodologies and, where applicable, the selected standardized baselines and any other standards, methodologies, methodological tools and guidelines applied in accordance with the selected methodologies (hereinafter “any other standards, methodologies, methodological tools and guidelines (to be) applied in accordance with the selected(applied) methodologies” are collectively referred to as the other (applied) methodological regulatory documents), with the exception of the provisions on the application of global warming potential values for the period from 1 January 2021 in accordance with the “Clarification: Regulatory requirements under temporary measures for post-2020 cases” (CDM-EB109-A01-CLAR), paragraph 4(d)(i). The “Rules and Reference” section of the UNFCCC CDM website contains all regulatory documents for the CDM, such as standards (including methodologies and standardized baselines), procedures, methodological tools, guidelines, clarifications, forms and the “Glossary: CDM terms” that may be applicable to the project activity.
2. Make any data, values and formulae included in spreadsheets accessible and verifiable.
3. Complete this form in English. Prepare all attached documents in English, or if their originals were prepared in another language, provide a full translation of the relevant sections of these documents in English.
4. Complete this form using the same format without modifying its font, headings or logo, and without any other alteration to the form.
5. Do not modify or delete tables and their columns in this form. Add rows to the tables as needed. Add additional appendices as needed.
6. If a section of the form is not applicable, explicitly state that the section is left blank intentionally.
7. Use an internationally recognized format for presentation of values. For example, use digit grouping in thousands and mark a decimal point with a dot (.), not with a comma (,).
8. Complete this form deleting this attachment.

2. Specific instructions

1. Provide the following information on the cover page:
 - (a) Title of the project activity;
 - (b) UNFCCC reference number of the project activity;
 - (c) Version number of the PDD applicable to this monitoring report;
 - (d) Version number of this monitoring report;
 - (e) Completion date of this monitoring report: Indicate the date in DD/MM/YYYY;
 - (f) Monitoring period number: The monitoring period number is an ordinal number referring to the chronological order of monitoring periods (e.g. "first monitoring period");
 - (g) Duration of this monitoring period: Indicate the duration with the first and last dates in DD/MM/YYYY – DD/MM/YYYY;
 - (h) Monitoring report number for this monitoring period: Applicable when preparing multiple separate monitoring reports for the monitoring period for different batches of small-scale project activities in the registered bundle of small-scale project activities. To distinguish between such multiple separate monitoring reports, assign an ordinal number from 1 upwards (e.g. 1, 2, 3...n) to each monitoring report in the consecutive order;
 - (i) Project participants;
 - (j) Host Party;
 - (k) Applied methodologies and standardized baselines: List all the methodologies, and where applicable, the standardized baselines, applied to the project activity;
 - (l) Sectoral scopes: List all sectoral scopes linked to the applied methodologies and applicable to the project activity;
 - (m) Amount of GHG emission reductions or net anthropogenic GHG removals achieved by the project activity in this monitoring period: Provide the total amount in tonnes of CO₂ equivalent achieved before 1 January 2013 (first commitment period), amount achieved from 1 January 2013 until 31 December 2020 (second commitment period), and amount achieved from 1 January 2021. For A/R project activities, if the monitoring period falls partly in the first commitment period and partly in the second commitment period, allocate all net anthropogenic GHG removals achieved since the start of the project activity to the commitment period in which the monitoring period ends for tCERs and all net anthropogenic GHG removals achieved since the last verification to the second commitment period for ICERs;
 - (n) Amount of GHG emission reductions or net anthropogenic GHG removals estimated ex ante for this monitoring period in the PDD: Provide the total amount in tonnes of CO₂ equivalent based on the ex ante estimation in the PDD, with adjustment for the comparable period, as appropriate.

SECTION A. Description of project activity

A.1. General description of project activity

1. Provide a brief summary of the project activity in terms of the purpose of the project activity and the measures taken for GHG emission reductions or net anthropogenic GHG removals.

A.2. Location of project activity

1. Provide details of the physical/geographical location of the project activity, including physical address (host Party, region/state/province, city/town/community, street name and number) and a map, and if necessary, other information allowing for unique identification of the project activity (e.g. geographic coordinates).
2. Do not exceed one page for the description of location.

A.3. Parties and project participants

1. List in the table the Parties and the project participants involved in the project activity.

A.4. References to applied methodologies and standardized baselines

1. Indicate the exact references titles, versions and UNFCCC reference numbers) of:
 - (a) The applied methodologies (e.g. ACM0001: “Large-scale consolidated methodology: Flaring or use of landfill gas” (version 15.0));
 - (b) Any other methodologies or methodological tools to which the applied methodologies refer (e.g. “Methodological tool: Tool for the demonstration and assessment of additionality” (version 07.0.0));
 - (c) The applied standardized baselines, where applicable (e.g. ASB0001 “Standardized baseline: Grid emission factor for the Southern African power pool” (version 01.0)).
2. Refer to the UNFCCC CDM website for the exact reference of the applied methodologies, methodological tools and standardized baselines.

A.5. Crediting period type and duration

1. Provide the type (renewable or fixed), and the duration (with the start and end dates in DD/MM/YYYY – DD/MM/YYYY) of the crediting period corresponding to the monitoring period covered in this monitoring report.

SECTION B. Implementation of project activity**B.1. Description of implemented project activity**

1. Provide information on the implementation status of the project activity in accordance with the applicable provisions on the description of implemented registered CDM project activities in the project standard, including:
 - (a) Description of the installed technologies, technical processes and equipment;
 - (b) Information on the implementation and actual operation of the project activity, including relevant dates (e.g. construction, commissioning, start of operation). If the project activity consists of more than one site, describe the status of implementation and start date of operation for each site. If the project activity is implemented in phases, indicate the progress of the project activity achieved in each phase.
2. For the description of the installed technologies, technical processes and equipment, include diagrams, where appropriate.
3. If applicable, present information on any post-registration changes to the project activity in section B.2 below.

B.2. Post-registration changes**B.2.1. Temporary deviations from the registered monitoring plan, applied methodologies, standardized baselines or other methodological regulatory documents**

1. Indicate whether there are temporary deviations from the registered monitoring plan, the applied methodologies, the applied standardized baselines or the other applied methodological regulatory documents during this monitoring period.
2. If there are such deviations, for each deviation, provide a description of the nature, extent and duration of the non-conforming monitoring period, and:
 - (a) Propose alternative monitoring arrangements for the non-conforming monitoring period in accordance with the applicable provisions in the project standard; or
 - (b) Apply the most conservative values approach in accordance with the applicable provisions in the project standard.
3. Provide the version number and the completion date of the DOE verification report.

B.2.2. Corrections

1. Indicate whether there are any corrections to project information or parameters fixed at the registration or renewal of crediting period of the project activity.
2. If there are such corrections, list all the corrections since the registration of the project activity, or renewal of crediting period, separating them into the following categories:
 - (a) Corrections that have been approved by the Board as applicable from the period prior to this monitoring period;
 - (b) Corrections that have been approved by the Board as applicable from this monitoring period;
 - (c) Corrections that are being submitted with this monitoring report as part of the request for issuance (post-registration change – issuance track) as applicable from this monitoring period.
3. For the corrections referred to in 2(a) and 2(b) above, provide the approval dates and reference numbers of the post-registration changes.
4. For the corrections referred to in 2(c) above, provide the version number and the completion date of the revised PDD and of the DOE validation report.

B.2.3. Changes to the start date of the crediting period

1. Indicate whether there are changes to the start date of the crediting period fixed at the registration of the project activity.
2. If there are such changes, list all the changes since the registration of the project activity, separating them into the following categories:
 - (a) Changes that have been approved by the Board or notified to the secretariat and that do not affect the start of this monitoring period (i.e. any of the changed start dates are prior to the start of this monitoring period);
 - (b) Change that has been approved by the Board or notified to the secretariat and that affects the start of this monitoring period (i.e. the changed start date is the start of this monitoring period);
 - (c) Change that affects the start of this monitoring period and is being submitted with this monitoring report as part of the request for issuance (post-registration change – issuance track) and that affects the start of this monitoring period.
3. For the changes referred to in 2(a) and 2(b) above, provide the approval dates and reference numbers of the post-registration changes, or provide the notification date.
4. For the changes referred to in 2(c) above, provide the version number and the completion date of the revised PDD and of the DOE validation report.

B.2.4. Inclusion of monitoring plan

1. Indicate whether there is a post-registration change to include a monitoring plan into the PDD, for which the delayed submission of the monitoring plan was chosen by the project participants at the time of the registration of the project activity.
2. If there is such change, indicate which one of the following categories that the change falls under:
 - (a) Inclusion has been approved by the Board as applicable from the period prior to this monitoring period;
 - (b) Inclusion has been approved by the Board as applicable from this monitoring period (i.e. this is the first monitoring period for the project activity); or
 - (c) Inclusion is being submitted with this monitoring report (post-registration change – issuance track) as applicable from this monitoring period.
3. For the case referred to in 2(a) or 2(b) above, provide the approval date and reference number of the post-registration change.
4. For the case referred to in 2(c) above, provide the version number and the completion date of the revised PDD and of the DOE validation report.

B.2.5. Permanent changes to the registered monitoring plan, or permanent deviation of monitoring from the applied methodologies, standardized baselines, or other methodological regulatory documents

1. Indicate whether there are permanent changes to the registered monitoring plan, or permanent deviation of monitoring from applied methodologies, applied standardized baseline, or other methodological regulatory documents.
2. If there are such changes, list all the changes since the registration of the project activity, separating them into the following categories:
 - (a) Changes that have been approved by the Board as applicable from the period prior to this monitoring period;
 - (b) Changes that have been approved by the Board as applicable from this monitoring period;
 - (c) Changes that are being submitted with this monitoring report as part of the request for issuance (post-registration change - issuance track) as applicable from this monitoring period.
3. For the changes referred to in 2(a) and 2(b) above, provide the approval dates and reference numbers of the post-registration changes.
4. For the changes referred to in 2(c) above, provide the version number and the completion date of the revised PDD and of the DOE validation report.

B.2.6. Changes to project design

1. Indicate whether there are any changes to the project design of the project activity.
2. If there are such changes, list all the changes since the registration of the project activity, separating them into the following categories:
 - (a) Changes that have been approved by the Board as applicable from the period prior to this monitoring period;
 - (b) Changes that have been approved by the Board as applicable from this monitoring period;
 - (c) Changes that are being submitted with this monitoring report as part of the request for issuance (post-registration changes - issuance track) as applicable from this monitoring period.
3. For the changes referred to in 2(a) and 2(b) above, provide the approval dates and reference numbers of the post-registration changes.
4. For the changes referred to in 2(c) above, provide the version number and the completion date of the revised PDD and of the DOE validation report.

B.2.7. Changes specific to an afforestation or reforestation project activity

1. Indicate whether any changes specific to afforestation or reforestation project activities have been applied during this monitoring period.
2. If there are such changes, list all the changes since the registration of the project activity, separating them into the following categories:
 - (a) Changes that have been approved by the Board as applicable from the period prior to this monitoring period;
 - (b) Changes that have been approved by the Board as applicable from this monitoring period;
 - (c) Changes that are being submitted with this monitoring report as part of the request for issuance (post-registration changes - issuance track) as applicable from this monitoring period.
3. For the changes referred to in 2(a) and 2(b) above, provide the approval dates and reference numbers of the post-registration changes.
4. For the changes referred to in 2(c) above, provide the version number and the completion date of the revised PDD, if submitted, and of the DOE validation report.

SECTION C. Description of monitoring system

1. Provide a description of the monitoring system in accordance with the applicable provisions on the description of monitoring system in the project standard and the monitoring plan in the registered PDD. Include line diagrams showing all relevant monitoring points.

SECTION D. Data and parameters

1. Provide information on all data and parameters in accordance with the applicable provisions on data and parameters in the project standard, using the tables provided in sections D.1 and D.2.
2. For the row "Purpose of data/parameter" in the tables in D.1 and D.2, choose one of the following options:
 - (a) Calculation of baseline emissions or baseline net GHG removals;
 - (b) Calculation of project emissions or actual net GHG removals;
 - (c) Calculation of leakage.
3. Where the applied standardized baselines standardize baseline emissions, apply the standardized values of the parameters in sections D.1 and/or D.2 in accordance with the applicable provisions related to data and parameters in the project standard.

D.1. Data and parameters fixed ex ante

1. Include data that were fixed at the registration or at the renewal of crediting period of the project activity, and were used during this monitoring period, by replicating the information from the registered PDD.
2. For the row "Source of data", ensure that the source of data is provided; including reference to the report or study for the ex-ante parameter or if the source of data comes from the applied methodologies.
3. For the row "Value(s) applied", use one table to report multiple values referring to the same data and parameter, if applicable.
4. Include global warming potential values (GWPs) to be used for section E below, by differentiating the values used for the period before 1 January 2013, from 1 January 2013 until 31 December 2020, and from 1 January 2021, as applicable, in accordance with decision 2/CP.3, decision 4/CMP.7 and the "Clarification: Regulatory requirements under temporary measures for post-2020 cases" (CDM-EB109-A01-CLAR), respectively.

D.2. Data and parameters monitored

1. Include data and parameters that were monitored during this monitoring period.
2. For the row "Monitoring equipment", provide information on type, accuracy class, serial number, calibration frequency, date of last calibration and validity.
3. For the row "Value(s) of monitored parameter", use one table to report multiple values referring to the same data and parameter, if applicable.
4. Describe details in spreadsheets if appropriate, attach them to the monitoring report, and provide the reference to the spreadsheets in this section.

D.3. Implementation of sampling plan

1. If a sampling plan was implemented to determine parameter values, provide a description of how the sampling for those parameters was implemented in accordance with the sampling plan in the registered monitoring plan, including the following information:
 - (a) Description of implemented sampling design;
 - (b) Collected data;
 - (c) Analysis of the collected data;
 - (d) Demonstration that the required confidence/precision level has been met;
 - (e) Demonstration that the samples were randomly selected and are representative of the population.
2. Attach to the monitoring report any spreadsheets to present full calculations or detailed information.

SECTION E. Calculation of emission reductions or net anthropogenic removals

1. In this section, apply the GWPs identified in section D.1 above. For calculation of GHG emission reductions achieved in the period from 1 January 2021, if the CMP adopts different GWPs for the period, update the calculation by applying the GWPs adopted by the CMP.

E.1. Calculation of baseline emissions or baseline net removals

1. Provide sample calculations for all formulae used to calculate baseline GHG emissions or baseline net GHG removals, applying actual values. Attach spreadsheets to the monitoring report to present full calculations for this monitoring period.

E.2. Calculation of project emissions or actual net removals

1. Provide sample calculations for all formulae used to calculate project GHG emissions or actual net GHG removals, applying actual values. Attach spreadsheets to the monitoring report to present full calculations for this monitoring period.

E.3. Calculation of leakage emissions

1. Provide sample calculations for all formulae used to calculate leakage GHG emissions, applying actual values. Attach spreadsheets to the monitoring report to present full calculations for this monitoring period.

E.4. Calculation of emission reductions or net anthropogenic removals

1. Summarize the results of sections E.1, E.2 and E.3 above, and provide GHG emission reductions or net anthropogenic GHG removals for this monitoring period, using the table.
2. If the monitoring period starts before 1 January 2013 and ends before 1 January 2021, provide GHG emission reductions achieved for the following two periods separately by allocating the raw data into the two periods in accordance with the applicable provisions in the project standard, and multiplying them with the applicable GWPs:
 - (a) Before 1 January 2013 (first commitment period);
 - (b) From 1 January 2013.
3. For A/R project activities, if the monitoring period falls partly in the first commitment period and partly in the second commitment period, allocate all net anthropogenic GHG removals achieved since the start of the project activity to the commitment period in which the monitoring period ends for tCERs and all net anthropogenic GHG removals achieved since the last verification to the second commitment period for ICERs.
4. If the monitoring period starts before 1 January 2021 and ends anytime thereafter, provide GHG emission reductions achieved for the following two periods separately. In this case, if the monitoring activity cannot be separated into the two time periods due to the reasons beyond control of the project participants, estimate emission reductions achieved in each period in a manner to reasonably reflect the actual emission reductions achieved in each period with an explanation of how such estimation is done, including, where appropriate, allocating the total amount of estimated raw GHG emission reductions for the entire monitoring period to each period proportionately to the duration of each period before multiplying with the applicable GWPs for the respective periods in accordance with the relevant provisions in the project standard and the "Clarification: Regulatory requirements under temporary measures for post-2020 cases" (CDM-EB109-A01-CLAR):
 - (a) Before 1 January 2021 (second commitment period);
 - (b) From 1 January 2021.

E.5. Comparison of emission reductions or net anthropogenic removals achieved with estimates in the registered PDD

1. Provide a comparison of the GHG emission reductions or net anthropogenic GHG removals achieved by the project activity during this monitoring period with the corresponding amount for the same period based on the ex ante estimation in the registered PDD.
2. In section E.5.1, explain the calculation of "amount estimated ex ante for this monitoring period in the PDD" transparently.

E.6. Remarks on increase in achieved emission reductions

1. State whether the actual GHG emission reductions achieved is greater than the amount based on the ex ante estimation in the registered PDD. If so, explain the cause of any increase in the actual GHG emission reductions achieved by the project activity during this monitoring period, including all information that is different from that stated in the registered PDD.
2. This section is not applicable for afforestation and reforestation (A/R) project activities.

E.7. Remarks on scale of small-scale project activity

1. This section is applicable only for small-scale project activities, including a registered bundle of small-scale project activities.
2. Demonstrate that the combined scale of the activities belonging to the same small-scale project type (Type I, II or III) remained under the limit of that type every year during the crediting period, or if, during any year of its crediting period, the combined scale goes beyond the limit of that type, cap the GHG emission reductions that are claimed for that year at the amount calculated with the limit of its type.
